An improbable comedy
in one act

The third season of the Kanata Theatre Group began in September. These three one-act plays are our first productions for the 1970-71 season. A three act play is currently in production for presentation in November.

This evening we have three Workshop Productions for your enjoyment. The idea of a workshop is to put people into unfamiliar roles so that they will learn as much as possible; thus, our three Directors are acting in this capacity for the first time, and several of our players are new to the Group.
